Profile

Motivated and detail-oriented MCA student with a strong foundation in Core Java, JDBC, Spring, Spring Boot, MySQL, and REST APIs. Skilled in developing backend applications, working with databases, and building object-oriented solutions using Java. Familiar with API testing using Postman, Git, and software development practices. Hands-on experience through academic projects and Java programming training. Seeking an entry-level Java Developer/Backend Developer opportunity to apply technical skills, solve real-world problems, and contribute to the development of reliable and scalable software solutions.

.
